

DECLARATION OF CONFORMITY NO. 24010 **SAFETY WATER VALVE** **MERABELL AQUAGUARD**

MERABELL AQUAGUARD safety valves are anti flood safety devices designed to prevent water leakage in the event of hose rupture or disconnection.

Available in two diameters: 1/2" and 3/4"

Maximum working pressure: 10 bar

Maximum working temperature: 90 °C

Declaration of Conformity

(in accordance with EN ISO 17050 1:2010)

Merabell Technologies s.r.o. hereby declares, under its sole responsibility, that the MERABELL AQUAGUARD safety water valve to which this declaration refers complies with the requirements laid down in Government Regulation No. 163/2002 Coll., as amended.

The product has, among other tests, been tested at pressures up to 1.5× higher than the maximum working pressure to ensure its mechanical integrity.
