

MARKUCH ZA GAZ OT NERŽJDAEMA STOMANA MERABELL GAS • CLASSIC

10 ГОДИНИ ГАРАНЦИЯ • ЛЕСНА БЕЗОПАСНОСТ • ПРЕДПАЗНО ПОКРИТИЕ

Описание маркуча: Маркуч MERABELL GAS CLASSIC се състои от неръждаем вълнообразен материал съгласно EN ISO 10380, неръждаемо плетиво и предпазно покритие, към който са заварени накрайници. Маркучът е предназначен за свързване на домашен газов уред към свързващата арматура на газопровода в сградата.

Технически параметри: Работно налягане: 0,5 bar • Медийм: газови горива 1., 2., и 3. клас съгласно EN 437 • Работна температура: 0 до 100°C • Устойчивост на висока температура: 650°C в течение на 30 минути • Светъл диаметър: DN12 • Минимален статичен радиус на огъване: R=45 мм • Минимален радиус на огъване за циклично натоварване: R=150 мм

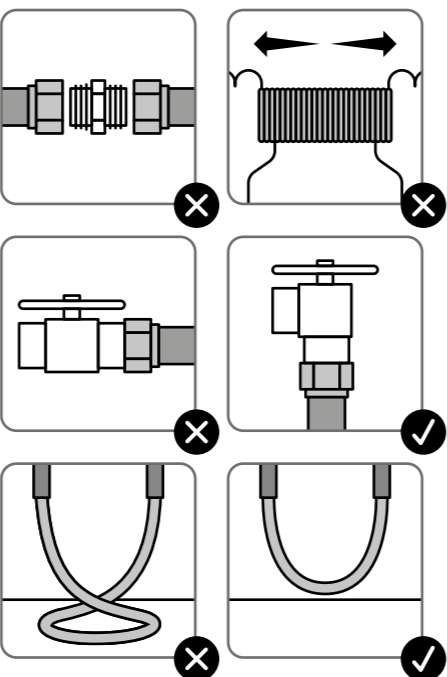

Монтаж на маркуча: Монтажът трябва да бъде извършен съгласно валидните национални разпоредби и стандарти. Свързването на газовия уред с помощта на маркуча може да се извърши единствено от оторизирано лице и съгласно валидните законови разпоредби.

Гаранция: Гаранционният срок е 10 години от датата на продажбата.

Гаранцията не се отнася до повреда от циклично огъване. Под това

се разбира и движение на маркуча чрез импулси от налягане. Гаранцията не се отнася до повреда, причинена от неспециализирана или забранена манипулация. При повреда на която да е част от маркуча трябва да бъде сменен целият маркуч. Каквато и да е намеса в конструкцията на маркуча е забранена. При повреда маркучът не трябва да се поправя. Намеса

в която да е част на маркуча означава, че той вече не отговаря на норма EN ISO 10380.

OPEN HERE

Your safety first

Using the extra safe all stainless steel MERABELL hose to connect your gas appliance is a great investment that will make you sleep easy. The slightest escape of gas brings about enormous safety risks. Compared to common connecting gas hoses, the unique MERABELL GAS CLASSIC series brings an even greater degree of safety.

10 10 YEAR GUARANTEE

Every manufactured hose is tested for tightness.

CERTAINTY OF SECURITY

The sturdy hose design together with the extra resistant material used (surgical steel) simply provide certainty. During normal use, the hose can never burst.

PROTECTIVE COATING

The metal surface of the hose is prevented from being potentially impaired by aggressive chemical agents. Metal can be destroyed, for instance, by chlorine cleaners.

MERABELL.COM

EN 10-YEAR GUARANTEE - CERTAINTY OF SECURITY - PROTECTIVE COATING

EN 10-YEAR GUARANTEE - CERTAINTY OF SECURITY - PROTECTIVE COATING

Description of connector: The MERABELL GAS CLASSIC consists of corrugated stainless steel that conforms with EN ISO 10380, and stainless steel braid and protective coating, on which terminals are welded. The connector is intended for connecting home gas appliances to the connecting valve of the house gas conduit.
Technical parameters: Operating pressure: 0,5 bar • Medium: gas fuels of class 1, 2 and 3 according to EN 437 • Operating temperature: 0 to 100°C • Resistance to high temperature: 650°C for 30 minutes • Inner diameter: DN12 • Minimum static bending radius: R=45 mm • Minimum bending radius for cyclic stress: R=150 mm

Assembling the connector: Connecting a gas appliance by means of the connector can only be performed by an authorized person in conformity with the legal regulations. The assembly must be executed in conformity with the national regulations in force.

Guarantee: The guarantee period is 10 years from the purchase date. The guarantee does not cover damage caused by cyclic bending. This also includes movement of the connector caused by pressure shocks. The guarantee does not cover damage caused by incompetent or forbidden handling. If any part of the connector is damaged, the entire connector must be replaced. Any interventions in the connector design are forbidden. A damaged connector must not be repaired. Modification of any part of the hose means that it is no longer in conformity with EN ISO 10380.

DE ROSTFREIER WASSERSCHLAUCH MERABELL GAS • CLASSIC

10 JAHRE GARANTIE • SICHERHEITSGARANTIE • SCHUTZMANTEL

Beschreibung des schlauchs: Der Schlauch MERABELL GAS CLASSIC besteht aus Edelstahlwellrohr gemäß EN ISO 10380, rostfreier Umflechtung und Schutzmantel, an den Endstücke angeschweißt sind. Der Schlauch ist für den Anschluss eines Haushaltsgasgeräts an die Anschlussarmatur der Hausgasleitung bestimmt.

Technische parameter: Betriebsdruck: 0,5 bar • Medium: gasförmiger Brennstoff der 1., 2., und 3. Klasse gemäß EN 437 • Betriebstemperatur: 0 bis 100 °C • Temperaturbeständigkeit: 650 °C für 30 Minuten • Nennweite: DN12 • Minimaler statischer Biegeradius: R=45 mm • Minimaler Biegeradius für zyklische Beanspruchung: R=150 mm

Montage des schlauchs: Die Montage muss nach den geltenden nationalen Vorschriften erfolgen. Der Anschluss eines Gasgeräts über den Schlauch darf nach den geltenden gesetzlichen Vorschriften nur durch eine autorisierte Person erfolgen.

Garantie: Die Garantiezeit beträgt 10 Jahre ab Verkaufsdatum. Die Garantie bezieht sich nicht auf Beschädigung durch zyklische Biegung. Darunter versteht sich auch eine durch Druckstöße verursachte Bewegung des Schlauchs. Die Garantie bezieht sich nicht auf Beschädigungen, die durch unsachgemäße oder verbotene Handhabung verursacht worden sind. Bei der Beschädigung eines Teils vom Schlauch ist der gesamte Schlauch zu ersetzen. Sämtliche Eingriffe in die Schlauchstruktur sind untersagt. Bei Beschädigung darf der Schlauch nicht repariert werden. Eingriff in einen jeden Teil des Schlauchs bedeutet, dass dieser nicht mehr der Norm EN ISO 10380 entspricht.
